

# PONY XPRESS (EXPRESS) PX800RE FOR SALE

This 2006 Pony Xpress Toterhome is built on a Chevy 5500 chassis. The Duramax Diesel Engine and Allison Automatic Transmission are barely broken in with only 46,700 miles. You can pull a horse trailer, racing equipment or fifth wheel RV in complete comfort.

Outlets on the back of the truck allow you to pass both fresh water and 30 amp electricity from the generator to your trailer or fifth wheel. This RV is fully self-contained with a 5.5 kW Cummins Onan Quiet Diesel 5500 Generator which runs off the truck's fuel tanks. There is a 2000 watt inverter and three deep cycle house batteries with bidirectional charging.

There is a switch which allows you to jump the truck from the generator or jump the generator from the truck. The jack knife sofa and overhead bunk combined sleep four. The Pony is equipped with fresh and black water tanks, 6 gallon water heater, shower, toilet, 13,500 BTU air conditioner with heat strip, propane heat, refrigerator, convection microwave, two CD players, 20 inch TV, DVD player, DirecTV tuner and a TracVision L2 in-motion tracking satellite dish.
