

STOCK AND COMMODITY TRADERS' LIBRARY

This is a great collection of one owner, hardcover, used investor trading books, and is an ideal library for market traders. All books were purchased new, over several thousand dollars, and are in good to excellent condition. The books have no dust jackets, but have very minimal wear, as they have been read only once. Market Wizards is the only book in this collection that has a few paragraphs, in one chapter, that have been hi-lighted. These 33 books are not for sale individually. They were originally purchased for thousands of dollars and based on the lowest web offers for the same used books, the total amount for all books is \$595. **The entire collection is being sold for only \$250.**

The brass Bull and Bear figurines are mounted on handsome marble bases in dark green, black and white marble at a weight together of 10 lbs. The bookends are being sold for \$50 plus shipping/handling costs or you pick up. If you want to include the bookends with the books, the total cost is \$300.

The books and the bookends are sold as is with no returns or refunds. Shipping/handling costs will be added and can be sent via UPS (pick up from zip code 30113), or you can pick up personally. We only accept PayPal or cash.

If you have any questions about purchasing this collection, please complete the form at JohnFortune.com and we will get back to you as soon as possible.
